# New York Stock Market

New York, June 26 .- Under cfroum stances which apparently were favorable to security values, the stock market to-day developed a reactionary tone. Crop news, which had been awaited with a degree of interest tone. Crop news, which had been awaited with a degree of interest amounting almost to anxiety, was distinctly favorable. The decision in the Harriman merger case was regarded as highly encouraging, and reports of improvement in business were received from several quarters. The market was stimulated by a large volume of buying orders which had acoumulated over the week-end, and trading was more active than for some time. An appearance of strength was imparted at the opening by rises of 13-8 in both Union Pacific and a point or less elsewhere through the list. Before trading was well under way, however, prices fell off quickly, encelling many gains. During the remainder of the day the market was erratic and irregular. The speculative leaders, showing the effects of heavy pressure, ruled below Saturday's close during the afternoon, and ended the day with substantial losses.

Speculative sentiment reflected no change to which could be aspribed the reversal of the market's position, nor were there developments of an unfavorable character. The heaviness was attributed chiefly to realizing sales. Holders of large lines of stock, some of it acquired last Saturday on the rise, had the opportunity or closing out to-day at profits which were unusually attractive, in comparison with the few openings afforded during the recent weeks of narrow movements.
